METHODOLOGY:

INDICATORS & WEIGHTINGS

The **QS Asia University Rankings 2022** have been published since 2009. The method retains key indicators of the global ranking, such as Academic Reputation, Employer Reputation, and Faculty to Student Ratio, but also considers a set of performance metrics carefully tailored for the region.

	Academic Reputation Taken from the annual survey conducted by QS designed to evaluate the perceptions of academics from around the world regarding the best institutions in terms of research. This year, responses from over 130,000 academics were recorded globally.
	Employer Reputation Taken from the annual QS survey aimed at gathering the views of employers around the world on the institutions providing the best professionals. This year, responses from over 75,000 employers were analysed.
	Faculty Student This is the ratio between the number of academic staff and number of students. A higher number of teachers per student is an indirect indicator of the commitment of the institutions to high-quality teaching.
	Staff with PhD This indicator attempts to assess the quality of training of the academic staff, detecting the proportion of them that have reached the highest level of education in their area of expertise. This is an indirect measure of the commitment of universities to high-quality teaching and research.
	Citations per Paper This ratio measures the average number of citations obtained per publication, and is a proxy of the impact and quality of the scientific work done by universities. Underlying data of papers and citations is indexed by Scopus. The paper and citations counts are normalized in an attempt to equalize the influence of citations across the five broad faculty areas.
	Papers per Faculty This indicator seeks to determine the average number of scientific publications (papers) produced per faculty and evaluates the productivity of research institutions. Data is extracted from Scopus. Indexed papers in the last five full years are used (from 2015 to 2019 for the 2022 edition). The paper count is normalized, ensuring that citations achieved in each of the five broad faculty areas are weighted equally.
	International Research Network Using data provided by Scopus, this indicator assesses the degree of international openness in terms of research collaboration for each evaluated institution. The Margalef Index, widely used in the environmental sciences, has been adapted to estimate the richness of the selected international research partners for a given institution.
	International Faculty The International Faculty Index is simply based on the proportion of faculty members that are international. It is a proxy measure for how internationally attractive the university is to academic staff.
	International Students The International Students Index is based on the proportion of students that are international. It is a proxy measure for how internationally attractive the university is to students.
	Inbound Exchange Students Total number of students attending your university on international exchange programs for at least 1 semester in the last annual reporting period.
	Outbound Exchange Students Total number of students registered who have attended another university on an exchange program for at least 1 semester in the last annual reporting period.

Outbound Exchange	125

Bibliometrics data

Powered by **Scopus**

Students and faculty figures above are full-time equivalent (FTE). In those cases where only the headcounts were available, the FTE was calculated by applying a ratio based on country or regional average. When breakdown by undergraduate and postgraduate was available we used the sum total.

Scopus numbers extracted in March 2021 – variation in live database is to be expected.

Papers period: 2015-2019.

Citations period: 2015-2020

UNDERLYING RATIOS

The following charts present the ratios utilized for rankings calculations for your institution, compared against the **Regional (ASIA) Median** and **Mean** results.

REPUTATION PERFORMANCE: ASIA

ACADEMIC AND EMPLOYER REPUTATION SCORES

The chart below displays the institution's performance in the Academic and Employer Reputation indicators in the regional context.

The closer an institution is to the top-right section of the chart, the more reputed it is among academics and employers.

RESEARCH OUTPUT BY SUBJECT AREA

CITATIONS (EXCLUDING SELF-CITATIONS)

The following charts depict the evolution of the number of citations (excluding self-citations) considered for the 2022 edition of the rankings. Since 2018's edition, we have extended the citation window to six years (2015-2020). It should be noted that we still consider papers published in a five year period (2015-2019).

**REIMAGINE
EDUCATION**

THE ALFRED WEST JR.
LEARNING LAB

QS-WHARTON REIMAGINE EDUCATION AWARDS

06 - 10 December 2021 (Virtual)

Reimagine Education connects over 2000 government policy influencers, ed tech companies and university leaders to discuss how we might better measure learning gain; novel applications of neuroscience and artificial intelligence; new teaching and learning process and the future of education.

The conference will also feature pitches from the 120 finalists of the Reimagine Education Awards – the world's largest education award scheme – and 2 days of Interactive learning.

Why Attend?

MEET 200 Deans, CIOs and policy-makers from world-class universities and EdTech companies, providing an opportunity to identify international partnerships and investment opportunities.

DISCUSS key issues facing the world's educators, from the future of work, to potential pedagogical applications of VR; from the need to create new learning spaces, to the future of the university itself.

ACCELERATE your startup's growth – engage in exclusive one-to-one meetings with top investors and CIOs.

LEARN FROM expert keynote speakers from Google, Amazon, IBM, Harvard, Wharton and many more.

FIND OUT WHO'S DOING IT BEST – meet the people behind the most successful submissions to this year's Reimagine Education Awards – the "Oscars" of Education.

ENHANCE your professional development – join our active learning day, featuring workshops from, and hands-on learning moments with, selected thought-leaders.
